The North Carolina School of Science and Mathematics is happy to supply to any candidate for political office information of a substantive or factual nature. The Chancellor and Chancellor's principal staff members should take care not to go beyond this point and become actively involved by endorsing any candidate or becoming identified with any candidate. It is important that all candidates know they can receive factual information from the School, but it should be made clear that the administration of the School would not be identified with any candidate or any party.
