The State of North Carolina requires that seat belts be used by all drivers and passengers over 16 years of age in most types of motor vehicles. To re-enforce and complement that requirement, it is the policy of the North Carolina School of Science and Mathematics that all persons (both employees and students) traveling in a State vehicle assigned to the North Carolina School of Science and Mathematics shall use available front and back seat belts. Failure to comply with this policy may result, at the option of the Director of Campus Resources, in the withdrawal of an individual's privilege of using State vehicles.
