Project-based learning camp for underrepresented minorities

Step Up to STEM

Information Session

Step Up to STEM is currently accepting applications for the 2021 Cohort (online only). This project-based learning camp is for African American, Hispanic American, and Native American rising 9th grade students to explore STEM fields and careers and is scheduled for July 18 - 23, 2021.

During their one-week summer experience, students engage in an interdisciplinary science, applied science, and mathematics curriculum. This curriculum is designed to expose students to multiple disciplines within STEM and pique interest in and a love for learning.

Join us to discover what Step Up to STEM has to offer, the application process and more!

**Thursday, February 4, 2021 6:00 PM**
