EVERY STUDENT EVERY DAY

The wide-ranging impact of the NCSSM Foundation.

——— 2015-2016 ———
ANNUAL REPORT
North Carolina School of Science and Mathematics Foundation
North Carolina School of Science and Mathematics was created to be an agent of change. That description, however, doesn’t quite convey the true impact of the work being carried out by the students, faculty, and staff at NCSSM.

Change, in the parlance of many, is often rendered in the simplest of terms. A small tweak here, a simple adjustment there, and you have effected change.

What happens at NCSSM is so much more. We are truly engaging in transformation. We seek to dramatically influence the form, appearance, and character of STEM education in North Carolina and beyond. Each day we deeply engage with every student. From the living and learning spaces on NCSSM’s Durham campus, to distance learning and virtual classrooms in partner schools all across the state, NCSSM provides its students with incredible opportunities to expand their understanding of self, community, and the world around them. Each day brings with it the chance for every student to discover, imagine, design, invent, and reinvent. Every student. Every day.

You as a donor make this transformation possible. Without you and the multitude of like-minded friends of the school, it simply couldn’t be done. And while your financial support is surely the tangible instrument that allows NCSSM to carry out its mission, what is most transformative of all is your faith in the purpose of the school and in the generations of young people that will carry this state and nation forward.

On behalf of the NCSSM Foundation, North Carolina School of Science and Mathematics, students and educators throughout the state, and beyond, who reap the benefits of your faith, I thank you for your support.

With gratitude,

Katie Wagstaff
President, NCSSM Foundation

Murray Abramson '83
Murray Abramson is the vice president of global clinical operations at Biogen. He previously held a number of management positions at Merck with increasing responsibility. He has also served on the faculty of Duke University School of Medicine. Murray holds a B.S. in chemistry from Duke University as well as an M.D. from Duke University School of Medicine.

Richmond Baker
Richmond Baker is a senior supportability program manager at Microsoft. He has also held a number of other positions at Microsoft including engineer, public sector platforms technology lead, and premier field engineer. Additionally, he has worked as a network engineer for both US West and the United States Air Force, and as a consultant for Credence Automation. Richmond has a degree in information technology from the U.S. Air Force Academy, studied computer science at Colorado Technical University, and has received numerous certifications in his field.

Bob Bicksler
Bob Bicksler is the president and CEO of JML Optical Industries, LLC. Prior to his work there, Bicksler served as the president and CEO of Taproot Systems, Inc. Bicksler is also a part-time lecturer of strategy and entrepreneurship at the University of North Carolina Kenan-Flagler Business School. He holds a B.S. in business administration from The Pennsylvania State University and an M.S. in accounting from the University of North Texas.

Tina Burleson '89
Tina Burleson is a pediatrician at Oberlin Road Pediatrics and is affiliated with multiple hospitals in the Raleigh/Durham area, including Rex Hospital and WakeMed Health and Hospitals. She holds a B.A. from Wake Forest University, received her medical degree from Brody School of Medicine at East Carolina University, and completed her medical residency at the Medical University of South Carolina.

Dave Carroll
Dave Carroll is a materials physicist by training and teaches at Wake Forest University, where he heads the Carroll Research Group, the founding members of Wake Forest University’s Center for Nanotechnology and Molecular Materials. Previously, Carroll established the Laboratory for Nanotechnology at Clemson University. He received a B.S. in physics from NC State University and a Ph.D. in physics from Wesleyan University.

Deborah Coleman '86
Deborah “DC” Coleman is technology principal in the Hi-Tech, Communications, and Media Group at Xerox Corporation. Before joining Xerox, Coleman worked as an engineer at Ford Motor Company, an advisor at Edward Jones, and in several positions in manufacturing and management at Nortel Networks. DC has a B.S. in electrical engineering from Duke University and an M.B.A from Harvard Business School.

Carl Davis
Carl Davis is the senior vice president of investment strategies for SunTrust. He has spent the majority of his career in the banking industry, having worked with First Citizens Bank and Trust Company and Wells Fargo Corporation before joining SunTrust. He is also an adjunct professor in finance at NC State University. He holds a master’s in business administration from Duke University.
Sean Fahey ‘89
Sean Fahey is a founding partner and chief investment officer of Claren Road Asset Management. Prior to the founding of Claren Road, Fahey was a managing director at Citigroup. In his last role, Fahey was head of global emerging markets external debt trading. During his career at Salomon Brothers/Citigroup, Fahey held several roles across global credit trading. He received a B.A. in economics from Duke University.

David Gray ‘84
David Gray is a partner, and chief legal officer of Ziff Brothers Investment. Prior to assuming these roles he served as the company’s general counsel and managing director, vice president and counsel, and director. Gray has also been an associate at WilmerHale, a clerk in the U.S. Court of Appeals, and research analyst with top-secret security clearance at the Institute for Defense Analyses. He holds a B.A. in physics from Harvard University and a J.D. from Columbia University School of Law.

Chris Herrera
Chris Herrera is the director of client services at PrecisionLender. She has also served as vice president of administration at Topics Education and manager of entrepreneurial advisory services at PwC. Herrera earned a B.A. from Westminster College where she was a Presidential Scholar, and an M.B.A. from The University of Texas at Austin.

Kamela Heyward-Rotimi
Kamela Heyward-Rotimi is an independent research scholar and anthropologist. She is currently a visiting faculty member in the Department of Anthropology and a distinguished visiting research scholar at the Center for African and African-American Research at Duke University. She holds a B.A. from Spellman College and an M.A. and Ph.D. in cultural anthropology from University of Massachusetts at Amherst.

Brad Ives ‘82
Brad Ives is the chief sustainability officer and an associate vice chancellor for campus enterprises at University of North Carolina Chapel Hill. Ives joined UNC from the North Carolina Department of Environment and Natural Resources, where he served as the assistant secretary for natural resources. He has also served in leadership positions at Davidson River Capital, LLC; Integro Earth Fuels, Inc.; Illumination Renewables; and Babson Capital. Ives received his B.A. and J.D. from the University of North Carolina at Chapel Hill.

Henry Kuo ‘82
Henry is a financial services consultant with AXA Advisors, LLC, where he has worked for 21 years helping clients establish sound financial strategies and goals. He earned a B.S. in electrical engineering from NC State University and an M.B.A from Duke University’s Fuqua School of Business. He has chaired NCSSM’s Board of Trustees, the NCSSM Foundation’s Board of Directors, and the NCSSM Alumni Association.

Karen LeVert
Karen LeVert is CEO of Southeast TechInventures and COO of Ag TechInventures, Inc., both of which she cofounded as technology innovation labs. LeVert has over 25 years of successful leadership experience in start-ups, technology commercialization, and executive management. She holds an M.B.A from the University of Dayton and an information technology undergraduate degree from Eastern Michigan University.
Richard Linton

Richard Linton is dean of the College of Agriculture and Life Sciences at NC State University. Prior to NC State, he served as department chair of food science and technology at The Ohio State University, and as a faculty member of the Department of Food Science at Purdue University. He received a B.S. in biology, a master’s degree in food science, and a doctorate in food science from Virginia Polytechnic Institute and State University.

Scott Maitland

Scott Maitland is the owner of Top of the Hill Restaurant, Brewery, and Distillery. He is a graduate of the United States Military Academy at West Point, was a combat engineer platoon leader in the United States Army during the First Gulf War, and a Chancellor’s Scholar at UNC’s Law School.

Brian Morin ’85

Brian Morin is the President and cofounder of Dreamweaver International, as well as a cofounder of Snowflake LLC. He was also the CEO and founder of Innegrity LLC and has worked as a researcher at Milliken & Company, Ohio State and DuPont. He has amassed over 150 patents while at Dupont, Milliken, and other companies. He holds a B.S. in physics from the University of North Carolina at Chapel Hill, and M.S. and Ph.D. degrees in physics from Ohio State University.

Todd Roberts

Todd Roberts is chancellor of NCSSM and an ex officio member of the Foundation Board. He began his education career as a Durham Public Schools teacher and principal. Most recently, he served as superintendent of Ann Arbor Public Schools in Michigan before returning to Durham in 2010 to become NCSSM’s fourth chancellor. He holds a bachelor’s degree in English from Duke University and master’s and doctoral degrees in education from University of North Carolina at Chapel Hill.

Doug Shackelford

Doug Shackelford is dean and Meade H. Willis Distinguished Professor of Taxation at the University of North Carolina’s Kenan-Flagler Business School. He has also served as the school’s senior associate dean and associate dean for the master of accounting program. He created the UNC Tax Center, is a research associate at the National Bureau of Economic Research, and an International research fellow at the Oxford University Centre for Business Taxation. He has two degrees in business administration—a B.S. from the University of North Carolina at Chapel Hill and a Ph.D. from the University of Michigan.

Christy Shaffer

Christy Shaffer is a general partner at Hatteras Venture Partners and has over 25 years of experience in the life science industry. She joined Hatteras following a distinguished career at Burroughs Wellcome Co. and Inspire Pharmaceuticals. Shaffer has a Ph.D. in pharmacology from the University of Tennessee Health Science Center and did her postdoctoral training at The Chicago Medical School and the University of North Carolina at Chapel Hill.

Carl Ryden ’89

Carl Ryden is the chief executive officer and cofounder of PrecisionLender, as well as the chief operating officer at Purelux, Inc. His professional experience also includes positions at US Banking Alliance, Cordova Ventures, Bain & Company, and IBM, among others. Ryden has an M.B.A. from the MIT Sloan School of Management and a master’s in electrical and computer engineering from MIT.
Rick Stone
Rick Stone is chair emeritus of the Foundation Board, having served as board chair, board member, and chair of the Odyssey Capital Campaign. Prior to his retirement, Stone was an investment banker in New York City after having taught English literature in Boston. He received his A.B. from Princeton University, M.S. in finance from MIT Sloan School of Management, and Ph.D. in English literature from Cornell University.

Millie Tan
Millie Tan is an independent consultant for TAN Marketing, LLC. Most recently she served as chief marketing officer and senior vice president of global marketing for Quintiles, and before that as chief marketing officer of Monster Worldwide’s European business. She has also held senior positions in consumer marketing with Polaroid and Gillette. She holds a bachelor’s degree from Skidmore College, an M.B.A. from Dartmouth College, a master’s degree from Columbia University.

Clay Thorp
Clay Thorp is a cofounder and general partner at Hatteras Venture Partners. Thorp also currently serves as executive chairman of PhaseBio Pharmaceuticals and chairman of GeneCentric Diagnostics. He was also a cofounder and served as CEO and chairman of Synthematix, Inc., cofounder and head of corporate development for Novalon Pharmaceutical Corporation, and cofounder and president of Xanthom, Inc. He holds a B.A. in mathematics and art history from the University of North Carolina at Chapel Hill, and a master’s of public policy from Harvard University.

Katie Wagstaff
Katie Wagstaff is the president of the NCSSM Foundation. A southern Virginia transplant who has embraced Durham as her home, Wagstaff’s career in education and the nonprofit world has included stints at the University of North Carolina School of Dentistry and UNC Physicians and Associates. She joined the NCSSM Foundation in 1992. Wagstaff holds a bachelor’s degree in business management from Virginia Polytechnic Institute and State University.

Anne Whitaker
Anne Whitaker is the executive vice president and company group chairman of Valeant Pharmaceuticals. Prior to joining Valeant, Whitaker was the chief executive officer of Synta Pharmaceuticals, president of North America Pharmaceuticals at Sanofi, and has also held a number of leadership positions at GlaxoSmithKline, the last of which was senior vice president of sales and marketing. She holds a B.S. degree in chemistry and business from the University of North Alabama.

Tom Williams
Tom Williams is president of Strategic Educational Alliances, Inc. Prior to founding Strategic Educational Alliances, Williams served the public schools of North Carolina in various capacities for 32 years. Most recently, he was superintendent of the Granville County Schools until his retirement. Williams received his undergraduate degree in elementary education from Pembroke State University and his M.A.Ed., Ed.S., and Ed.D. in educational leadership from East Carolina University.

Brock Winslow ’86
Brock Winslow is the NCSSM’s vice chancellor for institutional advancement. Winslow works with the school community as well as other stakeholders to ensure and expand the NCSSM opportunity for North Carolina’s students. His division is primarily responsible for the school’s communications, constituent and legislative relations, and fundraising activities. He holds a B.A. from the University of North Carolina at Chapel Hill.
Year in Review: Giving News from Around Campus

Transformative Giving Circles: Recognizing NCSSM’s most generous donors

NCSSM was founded on the premise that the school would transform the way North Carolina’s students approach STEM education. For 35 years we have been doing just that, having helped more than 10,000 alumni shape their future through our residential and online programs. Our outreach programs have extended that reach to even more students and educators across the state.

Private donors have always played an indispensable role in helping NCSSM meet its obligation to the state and its students. NCSSM’s Transformative Giving Circles are the most prestigious way of recognizing those donors who have made a special commitment of leadership, engagement, and personal resources to ensure that the North Carolina School of Science and Mathematics continues to offer the greatest opportunity to young North Carolinians.

Individuals are invited into one of five circles—the Catalyst Circle, the Innovator Circle, the Visionary Circle, the Discovery Circle, or the Legacy Circle. The Circles draw their names from NCSSM’s core values, the pillars that allow us to live up to the promise of our mission, centered on a focus on students, a commitment to community, and a resolve to solve.

Every gift made to the NCSSM Foundation provides support across all of NCSSM’s programs and initiatives. From our residential campus to classrooms on the coast and in the mountains, each day private support allows students to think big and pursue their dreams. To shape and create. To make better what needs improving. Every day, in countless ways, our donors help turn possibilities into reality.
A two-year grant from the Jack Kent Cooke Foundation in Lansdowne, Virginia, in 2015-2016 allowed NCSSM to continue its service to students statewide, beginning with low-income, high-achieving eighth-grade students in Northampton County. The grant of $100,000 allows NCSSM to partner with Northampton County to increase its students’ performance in math through the development of a high school level integrated mathematics course delivered by NCSSM faculty via interactive videoconferencing. Approximately 25 students have benefited from the course in each year of the grant.

“North Carolina has a lot of potential, a lot of intellectual capital, that—given the right tools and the right opportunities to develop and excel—could really make a huge positive impact on the state’s future,” says Jamie Lathan, dean of distance education at NCSSM. “Northampton County is one of those places where some exciting things are happening.”

“We’re striving to perform better in every subject, but we especially have to perform better in math,” says Northampton County Schools Superintendent Monica Smith-Woofter, who attended Northampton schools herself and taught in the district before being named superintendent. “This partnership with NCSSM and the Jack Kent Cooke Foundation will give us the momentum we need to achieve that goal.”

Ultimately, the course and related materials will be available online, free of charge, to schools across the state. It’s one more example of how private support is helping NCSSM extend its classroom to classrooms throughout North Carolina.●

Jack Kent Cooke Foundation grant boosts math instruction in high-need schools

Giving News from Around Campus

School’s first-ever Giving Tuesday campaign draws donors, dollars

Though we’ve all heard that many hands make light work, it’s easy to forget just how much can be accomplished when a lot of people come together for a single cause.

NCSSM’s first-ever Giving Day, held December 1 as part of an international day of giving called Giving Tuesday, is a perfect example of the power of participation. The effort brought in over $40,000 in charitable gifts in support of the school in a single 24-hour period.

Many new donors participated, building the school’s base of support. This level of engagement, says NCSSM’s development director Lauren Carr ’00, was one of the most encouraging outcomes of the effort. “We had a number of challenges throughout the day, issued from donors to other donors. Our peer challenges—presented by a family to other parents and by alumni from the classes of ’95, ’07 and ’08 to their classmates—absolutely helped inspire giving.”

### #NCSSMGives
by the numbers

- **$41,415.33** raised on December 1 from donations and pledged matching gifts
- **20** different funds received designated gifts
- **159** donors participating, including:
  - **96** alumni (**28** of **34** classes participating!)
  - **23** employees
  - **34** parents
  - **33** new donors

Social media was critical for spreading the word. “I think that’s really what giving day is about,” says Carr. “Even a gift of $10 has a lot of impact when you encourage others to join you in support of a mission or cause that’s important. Everyone has the opportunity to be an inspiration.”
EVERY STUDENT, EVERY DAY

Months of bus rides to work with research mentors at area universities. Study-break supplies to help floormates build community. Engineering faculty positions to broaden the STEM curriculum. A loaner laptop for students who can’t afford their own. These are among the hundreds of ways the NCSSM Foundation enhances our students’ days.

Put simply, Foundation support transforms a black-and-white education into a full-color experience, and ensures that NCSSM remains a global leader in STEM education for talented students.
“The Foundation provides many opportunities I wouldn’t have otherwise, such as academic competitions, hall activities, and loops to different places. NCSSM is a great place to go for not only an education, but also a unique experience that is hard to find anywhere else.”

— Ravin Kantesaria ‘17
“Every dollar to the Foundation helps create a peak experience for our students.”

— Tom Williams, Foundation Board of Directors
2015 saw the opening of NCSSM’s newest lab facility—the Peter T. Haughton Fabrication & Innovation Lab. The lab is the brainchild of Carl Ryden ’89, chair of the Foundation, who sought to honor his friend and classmate, Pete Haughton ’89, who passed away unexpectedly in 2006. Ryden envisioned an interdisciplinary space that would foster the cross-pollination of art, craftsmanship, and science.

“Pete was incredibly gifted at mathematics, but he found his greatest pleasure in using his genius to create beautiful and useful things,” says Ryden. He and Haughton both graduated from MIT’s Leaders for Manufacturing program, a combination of graduate engineering and business education that exposed them to MIT’s famed Fab Lab, a benchmark for such facilities.

NCSSM’s newest lab facility creates a blend of the technical and the vocational that leads to a greater understanding of the true nature of engineering. “It’s a comprehensive lab, bringing capabilities from woodworking to metalworking, plastics, and electronics,” says David Bryan, FabLab manager. Among the tools featured in the new facility are a three-axis mill and lathe in the metal shop; three-axis large-format and small-format routers in the wood shop; and three-dimensional printers, laser cutter, and embroidery machine in the digilab. “It’s one of the best labs I’ve ever seen, it compares to the best graduate-level lab.”

The lab is open to any student at NCSSM wishing to use the facility for approved projects, including online students visiting campus and students in NCSSM’s summer programs. “This is a phenomenal opportunity for students from all across our state to experience such sophisticated equipment,” says NCSSM Foundation President Katie Wagstaff.

The FabLab is a prime example of what can happen when people come together to make an impact. State funding transformed a research lab into a space for innovation. Private support equipped the lab, transforming it into a state-of-the-art facility. And finally, the Peter T. Haughton Fabrication and Innovation Endowment was created by Haughton’s mother, with additional support from alumni, to support the facility in perpetuity. What was once a seldom used space is now a place where new things are brought to life every day, all in honor of an alumnus who, in ways small and large, transformed the lives of those who knew him best.
Named NCSSM Foundation Endowments

**Aldrich Music Endowment**
Supports NCSSM's fine arts program with emphasis on performing arts

**Borden Mace Library Endowment**
Supports efforts to bring speakers to campus

**Bowman-Brockman Endowment for Entrepreneurship and Advanced Research**
Provides a funding source for students to pursue research projects, start up ventures, and supports some travel to academic competitions

**Branson Brown Athletics Endowment**
Supports athletic activities at NCSSM to include NCHSAA-recognized school teams as well as intramural activities

**Joe Freeman and Marylyn L. Britt Endowment**
Supports electronics and physics projects

**Broyhill Foundation Endowment**
Supports the Broyhill Leadership Series, which brings to campus speakers/professionals noted for their business leadership in the fields of science and technology

**Burroughs Wellcome Fund Endowment**
Supports faculty professional development

**Burroughs Wellcome Fund Endowment for Research, Mentorship, and Innovation**
Supports advanced research, mentorship, and innovation

**Class of 1983 Academic Endowment**
Funds academic programs

**Class of 1988 Endowment**
Supports employee recruitment and retirement recognition

**Joe Liles Fine Arts Endowment**
Provides continuous funding to enhance student development in instrumental, voice, drama, dance, and visual arts

**Dr. Joan Barber Endowment to Support URM Student Success**
Supports Colours gospel choir, student groups with a majority-underrepresented minority membership, and other programming/activities that support the success of URM students at NCSSM

**Fagan Fund for Faculty Excellence**
Supports faculty professional development

**The GAR Foundation Fund for Faculty Excellence**
Supports faculty professional development

**General Endowment**
Supports ongoing needs of the school and the NCSSM Foundation

**Glaxo Foundation Endowment for Student Research**
Supports students’ independent scientific research in biology

**Geun-ho Kim Scholarship**
For a graduating senior whose parents, or parent, immigrated to the United States.

**Hurd Memorial Residential Endowment**
Supports Student Services and Student Life programs

**Ives Academic and Club Competition and Conferences Endowment**
Supports residential students of NCSSM’s Durham campus who are participating in academic and club competitions and conferences

**Joseph M. Bryan Sr. Endowment Fund**
Unrestricted endowment

**Kuo Family Endowment**
Supports the Science and Mathematics Departments of NCSSM’s Durham campus

**George E. Etta Lou Loftin Endowment**
Supports students with financial needs

**Jon Miller Endowment for the Humanities**
Supports the Humanities Department’s unmet needs

**NCSSM Alumni Scholarship Endowment**
Provides college scholarships to selected graduating seniors

**NCSSM Challenge Endowment**
Supports programs that inspire NCSSM students to donate while still enrolled at the school

**Peter T. Haughton Fabrication and Innovation Endowment**
Supports the Peter T. Haughton Fabrication and Innovation Laboratory

**Prabhu Endowment for the Sciences**
Supports the school’s technology infrastructure, especially involving the teaching of science

**Quarter Century Unrestricted Endowment**
Supports student body, faculty, and general community

**Steffee Endowment for Student Research and Creativity**
Encourages independent research and student-driven academic projects

**Troan Endowment for Technology**
Supports unmet technology needs

**Virginia S. Wilson Scholarship**
Provides a graduating NCSSM student with a scholarship to attend Duke University

**Engineering Endowment**
Supports the Engineering Department’s unmet needs

**Humanities Endowment**
Supports the Humanities Department’s unmet needs

**Mathematics Endowment**
Supports the Mathematics Department’s unmet needs

**Science Endowment**
Supports the Science Department’s unmet needs

**Technology Endowment**
Supports NCSSM’s unmet technology needs

**Wachovia Unrestricted Endowment**
Supports the Foundation and the school and funds many of the needs of the school’s student body, faculty, and general community

**Women With Wings Endowment**
Supports programs in aviation and aeronautics for young women
The creation of the Peter T. Haughton Fabrication and Innovation Endowment made possible NCSSM’s newest lab facility, creating a space for innovation for all NCSSM students (p. 16).

“It’s really fun to give back. It’s a great experience to see how giving makes an impact on students. It’s clear that the school makes great use of our donations.”

— Steven Aldrich ’87, chief product officer, GoDaddy, San Francisco, CA
“Science and Math truly changed my life. My family could never have afforded such a quality education.”
— Tina Burleson ’89, Alumni Board, pediatrician, Oberlin Road Pediatrics, Raleigh, NC

“I don’t live in NC, so I’m not contributing via taxes or my time. I give to the unrestricted fund, to make sure all the extra programming remains viable.”

— Roshan Baliga ’99, product manager, Google, Silicon Valley, CA
“I am so grateful for the opportunities I was given at Science and Math, and I would hope that those same opportunities can be given to students in the future.”

— Leslie Wander ’01, engineer/consultant, Seattle, WA
“At Science and Math, we received room and board and a world-class education—for free—and it felt natural that once we graduated, we would want to give back.”

— Heather Mohorn Kachinske ’05, owner, Momo’s Tree House, Philadelphia, PA
“I’m paying it forward to help make the school a better place, for my children and for everyone in North Carolina.”
— Brad Ives ’82, parent, Foundation Board of Directors
“Without the generosity of parents, alumni, current students, faculty and staff, board members, corporate donors, and other friends, we’d be a shadow of the school we love so much.”

— Elizabeth Moose, dean of humanities
“We give in support of sustainability. I knew there were limited sources available to fund the good ideas our students had.”
— Steve Warshaw, retired vice chancellor of academic programs

“Why wouldn’t I give back to NCSSM? Look at all the opportunities it’s given me.”  
— Cierra Hinton ‘08, Alumni Board
“Science and Math is a once-in-a-lifetime experience and without all of the opportunities given to us by donors, the school environment would not be the same.”

— Komal Charania ’15, junior, NC State
